BACKGROUND

Corona virus disease 2019(COVID-19) is an illness caused by a novel corona virus called severe acute respiratory syndrome 2(SARS-CoV-2) which was first identified in Wuhan city, China on December 31st 2019. On January 30, 2020, WHO declared COVID-19 as a global health emergency and on March 11, 2020 it was declared a global pandemic. The first case was detected in Cameroon in March 2020. Cumulatively Cameroon has recorded 19,604 cases with 415 deaths and 18,448 recoveries in all 10 regions. Owing to the measures put in place by the government of Cameroon which includes frequent hand washing, physical distancing, compulsory wearing of facemask in public places, and enhanced surveillance at community level to detect and report cases; **Value Health Africa** (with funding from **Prudential Beneficial**) has been carrying out several activities all geared towards supporting the government's efforts in controlling the pandemic. Funds received by **VAHA** is aimed at achieving the following;

1. Provide education that strengthens community awareness on COVID-19 amongst high risk communities (IDPs, over-crowded, slums) in Baffoussam, Mbouda, Bamenda, Douala, Buea, Ngongsamba and Dschang.
2. Printing of 1000 posters carrying awareness messages on COVID19.
3. Build capacity for 2100 community health workers to improve community education and community detection of cases.
4. Distribute 100 reusable personal Protective Equipment to five vulnerable health facilities.
5. Establish 35 hand washing stations in strategic points in vulnerable communities to benefit local inhabitants.
6. Install three bore holes in three disadvantaged communities (one in the West region, One in North West region, and one in Littoral region)
7. Reach out to 20 underserved schools with hand washing stations, hand sanitizers and facemasks in four regions in Cameroon (five in Yaounde, Five in Douala, five in Bamenda and five in Baffoussam).
8. Provide 20 Orphanages with hygiene kits and food supplies and install mask production sites in two most vulnerable orphanages.

SUMMARY

This report outlines the activities carried out in the School Campaign, Orphanages outreach capacity building workshops, Borehole construction for the Prudential COVID-19 relief funds program. This project was launched this 2020 and funded by **Prudential beneficial** insurance with aim to help fight COVID-19 by helping to break the chain through raising awareness in various communities across all regions of the country (10 regions). Also, to provide assistance to the population who are most at risk and vulnerable. The main activities carried out in this first phase of implementation included; sensitization on COVID-19, donation of hand washing stations, face mask, hand sanitizers, detergents, posters and t- shirts in different schools in 5 regions of Cameroon; Littoral, Central, South West, West and Far North Regions. As concerns the Orphanages outreach, 12 orphanages in this first phase were chosen to benefit from donation of hand washing stations, sensitization on COVID-19, face mask, hand sanitizers, posters, t-shirts and food items. Capacity building workshops on COVID- 19 for community health workers and community leaders were carried out in 4 regions order to enhance early detection and reporting in communities. 500 community health workers and 500 community leaders in 4 regions of Cameroon have been trained with the remaining 1100 planned for the next phase. Three regions were selected which were North west, West and Littoral to benefit from the development of an enhanced well. The aim of creation of these enhanced wells was to provide assistance to populations who are most at risk and vulnerable to COVID-19 and to help individuals and communities observe regular hand washing, thereby preventing the spread of the COVID-19 pandemic. So far, one enhanced well has been completed in the West region and two still pending in the Northwest and Littoral.

KEY MILE STONES ACHIEVED

The first half of this project ran from July to August 2020 and activities carried out included;

- Outreach to 12 schools reaching over 15,000 students and pupils and 530 staff
- Outreach to 12 orphanages reaching over 1,400 orphans
- Capacity building of 500 community health leaders and 500 community leaders in North west, Littoral, Central, and West regions to benefit over 1 million inhabitants in 10 districts.
- Construction of one borehole in the West Region benefiting over 10,000 inhabitants.

I. OUTREACH IN SCHOOLS

More than 8000 students/pupils and 400 teachers in 12 schools located in 4 regions have benefitted from the first half of the implementation.

Objectives

- Decrease overall spread of COVID-19 in schools by improving awareness, promoting healthy information and demystifying myths and misconception in schools
- Ensure students are provided with face masks and school premises is equipped with hand washing stations, disinfectants, and sanitizers to enable students and teachers observe preventive measures against COVID 19 spread.
- Empower pupils and students to be advocates against COVID-19 spread in communities

Mask donation to pupils of Government practicing school Bonadikombo

Activities carried out during visit

- Sensitization and education of pupils, students and staffs on COVID 19

Sensitization on COVID 19 at GPS Bonadikombo

- Handing over and distribution of donations

Donations of hygiene kits to Bilingual Grammar School Molyko

Donation of hand wash station at GPS Bonadikombo

- Installation of hand wash stations
- Distribution of sensitization posters around the school premises

Donation of sensitization posters to Wise Bilingual Institute Mfou

TOTAL	24	8,002	1,438	93	100	329

Outcomes

- Over 8,000 school going children benefitted from COVID-19 facemasks
- Over 15,000 pupils and students and 530 teachers empowered with information on COVID-19 prevention
- 12 schools equipped with hand washing stations, disinfectants and hand sanitizers.

Appreciation remarks from heads of schools

- **Bilingual Grammar School Molyko**

Head teacher of Bilingual Grammar School Molyko making his remarks

The Principal was very happy, thankful and grateful with the gesture by **VAHA** and **Prudential Beneficial Insurance**, she assigned some staff to place the Hand Wash stands at strategic positions around the school and promised to put them into maximum use

- **Government practicing school Bonadikombo**

The Head Teacher on his part had special admiration for our hand wash station, in his interview on local media, described it as Modern and well conceived design, he is very grateful for our gesture and wished that other organizations and companies can copy the example and help our local communities in such humanitarian gestures.

The pupils had to shout for joy as they put on their new face masks that they got for free from **Value Health Africa**.

- **Wise Bilingual Institute Mfou**

“We truly appreciate the efforts made today by **Value Health Africa**. Their gifts are timely considering the efforts private schools have to make to respect WHO measures”.

- **Sabibi nursery and primary school**

The Head Teacher was very happy and impressed with our gesture, she Thanked us so much, in her interview on media present, she expressed great joy, satisfaction and special gratitude to **Value Health Africa** and **Prudential Beneficial** for the wonderful gesture, and wished that we should be visiting the school every time and make the school our partner school in the South West, she also wished we could bring more T-Shirts, since the ones we gave would not be enough for all the staff.

The pupils were visibly very grateful and happy as they were brandishing their new face masks and gathering in front of the posters we put around the premises

- **Government high school (GHS) Limbe**

On camera and on air, the Principal expressed her joy, she was very grateful and highly appreciates **VAHA** and **PRUBEN** for the wonderful gesture, and prays that we should come again and again. She promised to use the materials for the purpose for which they are intended.

She also requested and collected some more face masks to give out to the students who were in the examination halls at the time.

The general excitement was very visible as the students, teachers and all those who were on campus were appreciating our campaign.

- **Ecole primaire St. Joseph d'obala**

“We are very happy and we appreciate this kind gesture from **Value Health Africa** and **Prudential Beneficial**. We will put all of these items into maximum use”.

- **Ecole primaire annexe G1 de Mfou**

“Bonne impression, surprise agréable pour des gadgets aidant aux mesures barriers”.

- **Technical College of Nkongsamba**

The Principal Mme Batokok was very happy and thanked **Prudential Beneficial** and **VAHA** for thinking about them and donating these things to the school

- **Primary public school Ntonde**

The Head teacher appreciated and thanked Prudential-Beneficial for the donations in school for the pupils to fight against COVID-19

- **CES Ntonde**

The representative of the Principal thanked Prudential-Beneficial and **VAHA** for the donations to the school

- **GBNS Ekangte Mbeng**

The representative of the Delegation of Basic Education, Mr Kenou Augustin, immensely thanked Prudential-Beneficial and **VAHA** for the gifts

Pending schools

Eight schools in the West and Northern regions are still pending

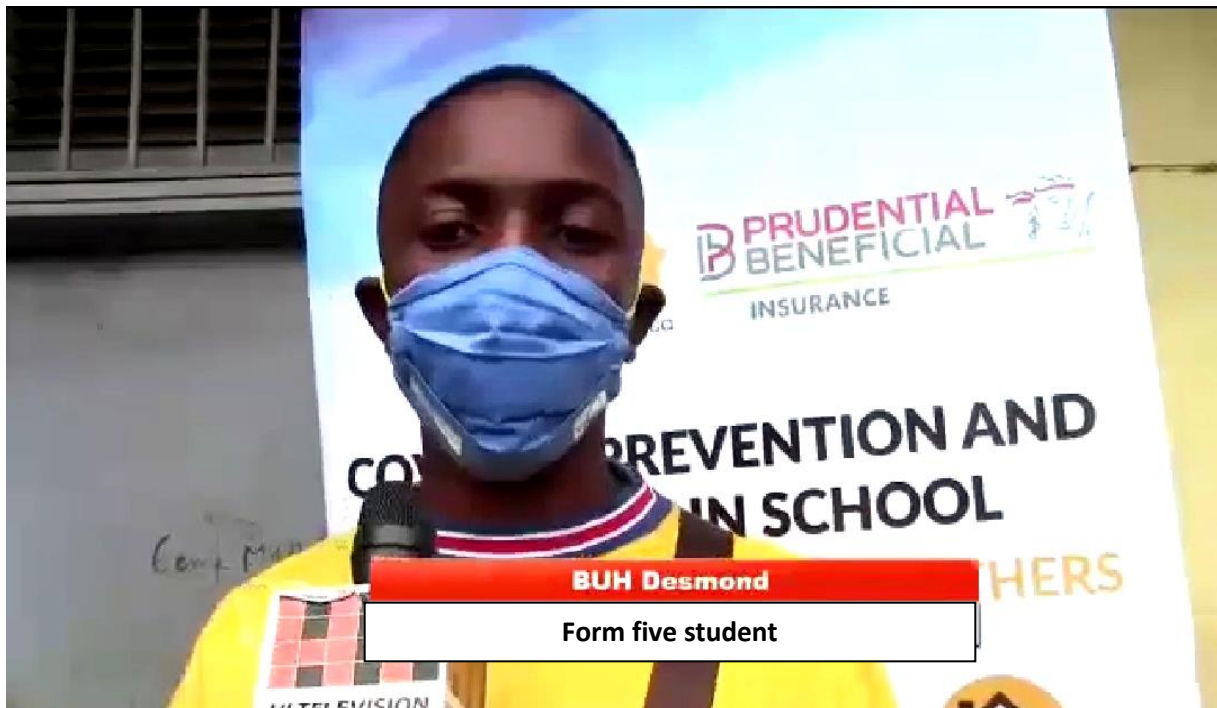

Conclusion

Over 15,000 school going children and 700 teachers benefitted from the donations brought to them by **Value Health Africa** with sponsorship from **Prudential beneficial** insurance.

II. OUTREACH IN ORPHANAGES

During pandemics, orphanages are more vulnerable and most affected and as such remain a priority for humanitarian assistance. **Value Health Africa** sticking to its mission, paid a visit to 12 orphanages selected in 5 regions of Cameroon; Central, West, South West, North west and the Littoral region. These orphanages benefitted from hand washing stations, face masks, hand sanitizers, posters, t- shirts and food items.

Objectives

- To support 12 orphanages with relief packages; face masks; food items; sensitization posters and hygiene kits.
- To sensitize and educate orphans on preventive barriers for the fight against COVID-19 and other communicable diseases.
- To engage children and adolescent in community advocacy through raising awareness on the measures put in place for COVID-19 prevention

Outcomes

- 1,402 orphans reached with relief packages; face masks; food items; sensitization posters and hygiene kits.
- 1,402 orphans sensitized and educated on preventive barriers for the fight against COVID-19 and other communicable diseases.
- 1,402 orphans engaged in community advocacy on awareness raising in the fight against COVID-19.

Appreciation remarks from heads of schools

❖ ORPHELINAT LE BON BERGER

“We are very happy that you are here and that we have been chosen among so many orphanages in the central region. The package you made is timely and will be of great help to us. We hope to see you again from time to time. Not always with packages, but even just to visit us. Chat with these children and make them smile. One more time thanks to you all and may God bless you.”

NGONO Marie Josée

❖ LA GRACE DIVINE

We are very happy that you are here and that we have been chosen among so many orphanages in the central region. The package you made is timely and will be of great help to us. We hope to see you again from time to time. Not always with packages, but even just to visit us. Chat with these children and make them smile. One more time thanks to you all and may God bless you”.

Alphonsine KABADIANG Epse MOUSSONG

❖ FOYER STNICODÈME

Tres satisfait de cette visite. Bonne Organisation et Bonne collaboration. Belle initiative de soutien par Beneficial

Père ADAMOU

Father Adamou Head of St Nidodemus Orphanage, appreciating the donors

❖ ARC DE LA MISÉRICORDE

Nous sommes très satisfait et serions honorés si nous pouvions être soutenu dans plusieurs domaines tels que: éducatif, avec les fournitures scolaires, un matériel pour des jeux et loisirs comme des ballons, des tenues de sport mais aussi la literie pour les dortoirs et les fournitures de cuisine.

Mr Emmanuel

❖ KENTAJA Orphanage

Nous disons grandement merci à **Value health Africa** pour leur visite dans notre centre KENTAJA et surtout pour les enseignements sur le COVID-19 et à **Prudential Beneficial Insurance** pour les dons. Merci pour le sourire que vous mettez sur les lèvres des enfants.

Mme DASSI Directrice de KENTAJA

Mme Dassi Head of KENTAJA Orphanage appreciating VAHA and Prudential Beneficial

❖ **HELPING HANDS CHILDREN'S HOME**

Dear **Value Health Africa** and sponsor, we are so excited to have you in our midst. You came just at the right time; at the time we needed help most following the COVID-19 crisis which is ongoing. We can't thank you enough. Our prayer is that God should continue to bless you all.

❖ **DORCAS FOUNDATION**

It is the doing of the Lord that you are. We always believe each time any such services come here, it the Lord that has sent them. We cannot thank you enough. Our hearts are full of joy and satisfactions. We are more than happy to have you. We extend magnificent thanks to you and **Prudential Beneficial Insurance**. God bless you !!.

❖ **CIBAEVA**

When God says, nobody can say no! This morning I was asking God what the children are going to eat. I bought two loafs of bread to give to only the children on medications and out of sudden,

you came. My eyes were full of tears, I can't thank you enough. You are more than words can express. God bless you all. Do visit us again.

❖ **ORPHELINAT LE BON SAMARITAIN**

Nous sommes très satisfait et serions honorés si nous pouvions être soutenu dans plusieurs domaines tels que: éducatif, avec les fournitures scolaires, un matériel pour des jeux et loisirs comme des ballons, des tenues de sport mais aussi la literie pour les dortoirs et les fournitures de cuisine

❖ **HOTPEC ORPHANAGE HOME**

The staff and pupils were very grateful, they appreciated and sent words of Thanks to **VAHA** and **PRUBEN** for their kindness and for remembering them at this crucial time. They pray that God will replenish the source, and begged that we should always be thinking of them and bringing them more foodstuff which is a major need for the center.

❖ **RHEMA GRACE ORPHANAGE OMBE**

We had a warm welcome, the staff of the center is very grateful for the project, they greatly appreciate **VAHA** and **PRUDEN** for the donations made. They promise to use the donations judiciously, to ensure that they are put to proper maximum use. The children themselves were very excited and grateful, though they refused putting on the face masks until they were prayed over and blessed with anointing oil by their chaplain.

Pending Orphanages

2 Orphanages in South West Region

Conclusion

Over 1,402 orphans benefitted from the donations brought to them by **Value Health Africa** with sponsorship from **Prudential Beneficial Insurance**.

III. CAPACITY BUILDING OF COMMUNITY HEALTH VOLUNTEERS AND LEADERS

Community health volunteers and opinion leaders are key actors in community disease surveillance as they play a vital role in enhancing early detection and reporting of cases in the communities. One of **VAHA**'s key strategy in COVID-19 response is building capacity for these players. In this first half of the project, **VAHA** has organized several workshops in 3 regions of Cameroon. So far 10 capacity building workshops have been organized where over 500 community health workers and 500 community leaders have been trained.

DMO of Tubah health district and VAHA team

Objectives

- Decrease overall spread of COVID-19 in communities
- Enhance early detection and reporting of COVID-19 cases in communities
- Empower influencers of communities with right information and ability to counter misinformation within their communities

Table 3: Distribution of health districts, number of participants and donations

Region	Health District	Date	#participants	Masks donated	Posters

Appreciation remarks from District Medical Officers and representatives

- Dr Kouatchang Vanessa DMO Bangue health district, Dr in charge of COVID-19

“COVID 19 is a deadly disease that has put the whole world in panic and Cameroon in particular. We want to appreciate **VAHA** and **prudential Beneficial** for this wonderful initiative. This training will go a long way to curb the spread of this pandemic in our district and the country at large”.

- **Dr Zogo**(Representative of the regional delegate of public health for Littoral)

“Thanks to **VAHA** and **Prudential Beneficial** for this initiative in assisting the government in a fight like this one and we pray that they get to do much more of such gigantic gestures for our communities”.

- **Laboratory technician, Bangue health District**

“At a time like this, we need more advocates to go into the communities and bring more people for testing and so this will help us have skilled people in communities who know what is required and therefore there will be rapid reporting in communities”

Conclusion

- Over 500 community health workers and 441 community leaders have been trained from the capacity building workshops which will improve early detection and reporting of public health threats including COVID-19 in 10 districts (estimate population of 1million)

IV. CONSTRUCTION OF ENHANCED WELL

Hand hygiene has been identified as a primary preventive measure to decrease the spread of COVID -19. However, the availability of portable water to carry out hand washing is a major concern in certain disadvantaged communities in Cameroon. One of the targets of this project is to provide assistance to certain populations most at risk to COVID-19. To this effect, three vulnerable communities in 3 different regions were chosen to benefit from enhanced. In this first phase, one enhanced well have been constructed in Balatchi, in the west region of Cameroon. Balatchi is a rural community with over 10,000 inhabitants and have been facing water crises. In this community water born diseases like Typhoid is one of the most prominent cause for hospital visits.

Enhanced well-constructed for the Ntialong Balatchi community

Objectives

- ✚ Create enhanced wells in 3 vulnerable communities to improve access to water
- ✚ Educate the community on the necessity and importance of portable water and carry out hand hygiene demonstrations
- ✚ Educate the community leaders on well maintenance and water purification.

Activities

- i. Meeting with stakeholders of the West regions to discuss on the enhanced well

Construction

Meeting with stakeholders of West Region

- ii. Contract bore hole experts, prepare all logistic, legal and administrative document to facilitate the process.
- iii. Mapping out of enhanced well area.
- iv. Setting up of enhanced well.

Reported by Value Health Africa

Construction in progress

Enhanced well after Completion

- iii. Inauguration of enhanced well (Pending)

Outcomes

- ✚ Availability of portable water for use in the community benefiting over 10,000 inhabitants
- ✚ Increased knowledge on Water, sanitation and COVID 16
- ✚ Overall improvement in health and standard of living of the people in the community

Conclusion

Despite the challenges encountered in the construction of this enhanced well, about 10000 inhabitants will benefit from this enhanced well.
